SUBJECT: **Supplemental efficacy data for new Registration:**
Product Name: **WASH 'N BLEACH EXTRA²**
Company Name: **NorAmTech Corporation**
File ID No.: **16930-L**
Company Number: **16930**
Establishment Number: **16930-MO-1**
Application OPP ID#: **250806**

Dear Mr. Swindell:

On behalf of our client, NorAmTech Corporation, we are submitting the enclosed supplemental efficacy data in support of the registration of a new product "WASH 'N BLEACH EXTRA²".

NorAmTech Corporation seeks EPA registration for this product as a laundry detergent/disinfectant for Industrial and Institutional use. This product's active ingredients are Hydrogen peroxide, provided by sodium percarbonate, and Tetraacetyl ethylenediamine (TAED).

WASH 'N BLEACH EXTRA² is a solid bleach/disinfectant industrial & institutional laundry product. WNB2 is effective against the standard health care organisms, *Staphylococcus aureus*, *Pseudomonas aeruginosa* and *Klebsiella pneumoniae*. The enclosed efficacy data adds the following health care concern organisms: *Escherichia coli*, *Proteus mirabilis*, *Salmonella choleraesuis*, and *Enterococcus faecium* to the label claims.

The attached Master Label has been modified to include the additional four organisms

This application contains:

Administrative:

- Transmittal Document
- Cover Letter
- Application (Form # 8570-1)
- Proposed product label [revised] (5-copies)

Data:

Brown, KD, (2001) "Petrocci and Clarke Laundry Sanitizer Test - Wash 'N Bleach Extra²" unpublished study, MicroBioTest, Inc., pg. 29 (3-copies)

We understand that this supplemental submission will not delay the registration of Wash 'N Bleach Extra², as this registration is dependent on the registration of the active ingredient TAED.

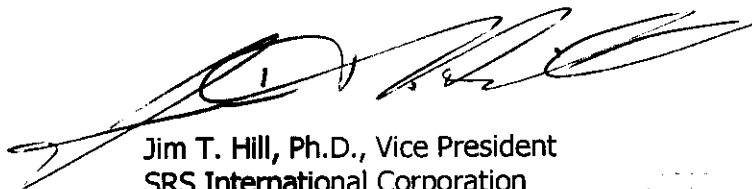

Please address all requests, comments or information concerning this application to:

NorAmTech Corporation
Attn: Dr. Jim T. Hill, Registration Agent
SRS International Corporation
1901 L Street, NW, Suite 250
